Dear Dr. Brown:

Mahalo for contacting my office on June 25, 2015 urging support for designating the Haleakala Trail as a National Historic Trail.

In my experience, many of the best ideas for making positive change in State government and for the people of Hawaii come from collaboration with members of the community. Similarly, when input is shared, it gives us the opportunity to assess the issue and take an appropriate course of action. Be assured that your input will be thoughtfully considered as decisions are made.

Again, thank you for taking the time to convey your thoughts. Together we can build a better home for your keiki, kupuna, and all the residents of Hawai'i.

With warmest regards,

DAVID Y. IGE
Governor, State of Hawai'i
